SAMPLES AND FABRIC COLORS

Since all computing devices show colors differently, we recommend that all of our customers request samples before ordering or purchasing anything to ensure you are satisfied with the color, feel and suitability of the fabric for your application.

We offer a fabric sample program designed to help you select the correct fabric for your application every time. By offering fabric samples our customers know exactly what they are getting before they place an order, or spend any money. This helps keep our customers satisfied with their non-returnable, non-exchangeable, nonrefundable by avoiding disappointments as a result of placing an order without first seeing and touching the fabric. There is a small fee + S/H/P per swatch sample due to our incurred cost from our fabric vendors. Fee is determined by the fabric house and fabric type, etc. Our interest is your ultimate satisfaction.
