Soft and durable, our beautiful heavier-weight organic flannel you've been looking for. Woven in the US using American-grown organic cotton, it is a spectacular version of one of the most popular fabrics out there.

Our organic light and soft flannel is oh-so-very useful. It's traditionally coveted for infant layettes -- diapers, blankets, sheets, pillowcases and other bedding, and so much more. Great for kids and grown-ups too, though -- line a pair of winter pants with flannel and you'll be oh-so-cozy, or make a splendid work shirt for those nippy fall mornings.

Although the fabric starts out soft enough, it washes up even softer and more luscious. It's really a splendid material!

FLANNEL FABRICS CATALOG

SAMPLES AND FABRIC COLORS

Since all computing devices show colors differently, we recommend that all of our customers request samples before ordering or purchasing anything to ensure you are satisfied with the color, feel and suitability of the fabric for your application.

We offer a finish sample program designed to help you select the correct fabric for your application every time. By offering fabric samples our customers know exactly what they are getting before they place an order, or spend any money. This helps keep our customers satisfied with their non-returnable, non-exchangeable, nonrefundable by avoiding disappointments as a result of placing an order without first seeing and touching the fabric. There is a small fee + S/H/P per fabric sample due to our incurred cost from our fabric vendors. Fee is determined by the fabric supplier and fabric type, etc. Our interest is your ultimate satisfaction.
