Our Most Natural Softest Sheeting Available!

Product ID# 1895

The percale fabric is brushed for extra softness, so it's almost like a flannel -- much cozier than plain sateen. It's woven and finished in the United States, using certified organic cotton grown in Texas, and turned into splendidly glorious sheeting. This fabric was woven just for us, because we are determined to offer US-woven organic sheeting that is both high-quality and affordable. We're thrilled with the finished product, and we know you will be too. This fabric does indeed make marvelous sheets (and duvet covers, pillowcases, curtains, and the like), At 14.8 ounces per linear yard, the fabric weighs 4.4 ounces per square yard.

- 100% Organic Cotton percale
- Color: Natural White
- Certified organic cotton grown in Texas
- Brushed for extra softness, almost like a flannel
- Fabric woven and finished in the United States
- 14.80 oz/linear yd; 4.4 ounces per square yard
- Machine wash in warm water. Tumble dry low. Warm iron

SAMPLES AND FABRIC COLORS

Since all computing devices show colors differently, we recommend that all of our customers request samples before ordering or purchasing anything to ensure you are satisfied with the color, feel and suitability of the fabric for your application.

We offer a fabric sample program designed to help you select the correct fabric for your application every time. By offering fabric samples our customers know exactly what they are getting before they place an order, or spend any money. This helps keep our customers satisfied with their non-returnable, non-exchangeable, nonrefundable by avoiding disappointments as a result of placing an order without first seeing and touching the fabric. There is a small fee + S/H/P per swatch sample due to our incurred cost from our fabric vendors. Fee is determined by the fabric house and fabric type, etc. Our interest is your ultimate satisfaction.
