ABIGAIL

COTTON EIDERDOWN ENCASUREMENT

400TC | 100% Silk Jacquard Encasement

Round Duvet Insert Pricing

Of all the different varieties of down available, there is nothing in the world that even approaches the warmth and softness of genuine Eiderdown. It is warmer in the winter, cooler in the summer, and more comfortable than anything else known to man. It is so incredibly lightweight that it is literally like sleeping under a warm cloud. It is the best. Our Eiderdown is hand collected from the birds' nests at Eider Duck sanctuaries, in a special relationship that has existed for generations between the Eiders and the local farmers. The birds are not disturbed, and are actually attracted to these safe areas because of food supplied by the down collectors.

We import from Europe a 100% Egyptian cotton of 400 thread count that is woven especially for Eiderdown. No down proof fabric is lighter, and it is the perfect match. We hand sew the duvet in our special sealed baffle box construction. Eiderdown tests at approximately 700 loft, but because of its phenomenal density and cling, it insulates at an amazing equivalent of 850 to 900 loft.

- 100% Cotton Jacquard Encasement
- Guaranteed Hypoallergenic
- Fabric made in Germany
- Sealed Baffled Box Design
- 400 Thread Count
- 700+ Loft Down
- 105 Grams / Square Meter
- Winter Weight Guaranteed for Warmth
- 3.1 oz. / Square Yard
- Dual Zone duvets available
- Oeko-tex Standard 100 fabric

GOOSE DOWN

400TC | Cotton Jacquard Encasement

NOW available in the USA

Round Duvet Insert Pricing

This is the *finest goose down* available anywhere in the world. It is collected from wild geese in the North by Cree Indians under special license. The huge down clusters actually cling together and so they must be hand sorted and then cleaned. *Similar to eiderdown*, it tests at 700 loft, but since it has the same unique properties of cling and high density, it insulates as if it were a 900+ loft down. This down carries the Zurguard® certification to be Hypoallergenic.

UKRAINIAN GOOSE DOWN

430TC | 100% Cotton Sateen Encasement

Round Duvet Insert Pricing

Much of the Ukraine is a fertile plain ideally suited to agriculture. Goose farming began thousands of years ago and these traditions are still alive and vibrant to this day. One of the most notable symbols of the Ukraine is the complex decorating of eggs using wax resist, a practice that also started thousands of years ago. In fact, this is where the tradition of the Easter egg began. These wonderful duvets and pillows carry a certificate of authenticity.

LUCIA

WHITE GOOSE DOWN

380TC | 100% Cotton Sateen Encasement

Round Duvet Insert Pricing

The Hutterite Colonists are an old Christian group devoted to a simple agricultural lifestyle. They follow the basic teachings of the Bible, and live peacefully in self sustaining communities. Having emigrated from Europe many years ago, they brought the farming skills of generations with them, including the raising of geese. Different Hutterite colonies specialize in different agricultures. Lucia White Goose Down *comes from a very special goose farm located in Saskatchewan* that takes great care in raising free range geese that are more mature than those in other colonies. Cranium Furniture takes their entire production each year. With a loft of 850 cubic inches per ounce, *this down is the most prized of all domestic downs raised in North America.*

WHITE DUCK DOWN

380TC | 100% Cotton Sateen Encasement

Round Duvet Insert Pricing

This wonderful duvet insert and comforter is the proof of some of the finest down in the world. These white ducks are raised to be more mature and larger, and so the down is also larger, puffier, and more resilient. In fact it is superior to many grades of goose down that are typically available in department stores. With this *exceptional down*, we have made a beautiful duvet and pillow collection that is wonderfully comfortable, and hypoallergenic.

- 100% Cotton Sateen Encasement
- Guaranteed Hypoallergenic
- 380 Thread Count
- Sealed Baffled Box Design
- 110 Grams / Square Meter
- 575 Loft Down
- 3.2 oz. / Square Yard
- Winter Weight Guaranteed for Warmth
- Available in Dual Zone –Request Quote
- Piped in white Satin cording

WHITE GOOSE DOWN

380TC | 100% Cotton Sateen Encasement

Round Duvet Insert Pricing

This is the *finest white goose down in the world*. Starting with select batches of mature white goose down, it is meticulously hand sorted to obtain the largest clusters, with the highest densities and cling factor possible. It looks and behaves *very much like a white eiderdown*. It is incredibly soft and lightweight, and this down will last for generations. Please call to verify availability. While this down tests out at 900 Loft, its high density gives it the equivalent insulating power of 950 points.

ZITA

DELUXE SILK

100% Silk Encasement

AVAILABLE FOR STANDARD BEDS ONLY

Round Duvet Insert Pricing

We are introducing these *Summer Weight Duvets* as *alternatives* for those that find down duvets too warm. Silk cocoons protect the baby moth from heat & cold, mildew, mold & mites, making silk one of the most perfect insulators; safe & natural. These silk duvets and comforters are exclusively made for Cranium Furniture.

- 240 Grams of silk per square meter
- 100% Silk cover
- Hand layered silk fill - 50% Mulberry, 50% Tussah

Why Choose Silk?

- **Breathable:** Silk naturally wicks moisture away from skin, keeping body temperature even.
- **Lightweight:** Because silk is such a fine fiber, it forms a tiny, intricate network of filaments that traps air superbly, thus providing exceptional insulation.
- **Natural:** Human beings have been living with natural fibers for tens of thousands of years.
- **Durable:** A silk fiber is stronger than a filament of steel of the same size. Silk fibers adhere to each other very well, so you will not experience clumping or bunching or thinning out of the fill. With proper care, silk will last for decades.
- **Hypo-Allergenic:** Without any chemical treatment, silk is naturally inhospitable to dust mites, moulds and mildews.
- **Luxurious:** Silk naturally drapes around the human form for a wonderful cozy feeling, unlike polyester, which can feel quite stiff in comparison.

Care:

- Air outdoors for a few hours 2-3 times a year; but NEVER leave in direct sunlight.
- Hand spot wash in lukewarm water. Use a mild non-alkaline soap such as baby shampoo or Ivory liquid. Do not soak.
- Add a little white vinegar to rinse water.
- Roll in a towel to extract water. Do not wring.
- Do not bleach.
- Avoid any contact with Peroxide, Hairspray or Perfume.
- Do not dry clean.

PRICING AVAILABLE ON THE FOLLOWING PAGE.

POLY COTTON DUVET INSERT

GC COLLECTION

260TC | 100% Cotton Encasement

Round Duvet Insert Pricing

Our GC Poly Duvet Insert and Comforter is specifically designed to fit our duvet covers or comforter only. These high loft Duvet Inserts and Comforter *replicate the feel and warmth of down* without the allergens and the medium weight provides comfort all year round. Attach the ties in the duvet cover to the Duvet- Insert or comforters looped corners so that it stays in place.

- Custom sizes for optimum fit
- Made in America
- Looped corners for attaching to duvet covers
- Multi-purpose all-season weight
- Hypoallergenic synthetic down fiber
- Baffled squares for maximum loft
- 260-thread count, 100% cotton encasement
- Double-stitched with piping

Care and Cleaning

If soiled or stained, poly comforters and pillows can be spot cleaned with a damp cloth and mild soap. For the cleaning of poly comforters and pillows, we recommend laundering rather than dry cleaning. You may wash poly items in a front-loading, extra-capacity washer (the kind used by professional laundries) using a mild detergent in cold water. Tumble dry in a dryer set on low heat. Remove every hour and fluff. Placing a few tennis balls in the dryer will facilitate the drying. Do not over dry, and remove promptly from dryer to prevent excessive wrinkling.
